SK Biopharmaceuticals aims to create an SE ecosystem which promotes social values through business activities through cooperation with social enterprises. SK Biopharmaceuticals is building a cooperative system in various business aspects, including procurement of consumables and IT services, while planning to further expand and widen the business linkage and support through activities such as the introduction of the employment scheme in connection with businesses employing the disabled.

Procurement of Consumables

SK Biopharmaceuticals is purchasing various consumables such as envelopes, business forms, kits for new hires, and ID card accessories from Happy Narae, a social enterprise specializing in industrial materials. In relation with in-house events, we are also cooperating with various social enterprises such as Bare Better, a standard workplace for the disabled, Disabled, a social enterprise managing artists with developmental disabilities, Otista, a social enterprise supporting autism, and Art Impact, a recycling social enterprise. SK Biopharmaceuticals plans to gradually expand the scope of cooperation and support.

IT Services

SK Biopharmaceuticals is collaborating with Happy ICT, a social enterprise that provides ICT-based public services with regard to website operation and maintenance.
